

16 Glydez included in pack (2 spares)

AU DR 366290/Patent Pending

### Step 1

Thread the end of the Glyde through the desired eyelet.

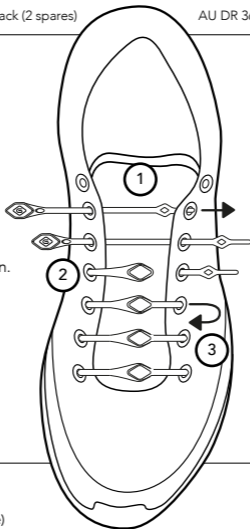

See overleaf for more threading styles.

### Step 2

After threading bend Glyde around to preferred position.

### Step 3

Bend and tuck end of Glyde into small hole behind Stud. Then pull Collar over Stud.

Top

Side

Below

Collar

(Flexible Silicone)

For ease of bending, threading and control.

Glyde (Flexible Silicone)

High retention of flexibility.

Stud

(Hard Acrylic)

Ideal to withstand the elements and harsh conditions.
